D35
TURNS
50

The exact origins of the D-35 are lost to history. We do know that its development is attributed to the scarcity of Brazilian rosewood. In what is probably our first acknowledgement of the challenge of making more guitars out of scarce resources, my dad's colleagues created the three-piece back D-35. While three-piece backs were not new on guitars, I think it's safe to say that the Martin D-35 is the most popular three-piece back guitar ever made. The D-35 has a traditional, yet cool, elegance that was – and is – just right.

Happy 50th birthday, D-35!

Guitar Body Molds
c. 1930-1940

Hand-crafted wooden molds like the ones seen here were traditionally used to shape the complex, asymmetrical shapes of guitar bodies. The molds were made of wood and were used to shape the body of the guitar. The molds are still used today, though they are gradually being replaced by more modern materials.

CUSTOM SIGNATURE EDITIONS

00-42SC John Mayer

This "00" 12-fret guitar boasts solid cocobolo sides, back and headplate, gorgeous "42" style appointments, and is inspired by the 00-45SC built in collaboration with John Mayer in 2012. The "SC" stands for stagecoach, harkening back to an era when guitars were taken on trains, wagons, and horses for bringing people together in song.

D-35 Seth Avett

Built in collaboration with Seth Avett of The Avett Brothers, a high-altitude Swiss spruce top is featured for the top of this 14-fret Dreadnought. Harvested in winter months to produce a lighter-weight wood with better stiffness, this wood features a tight and even grain. This guitar also sports a three-piece back composed of East Indian rosewood with a flamed koa center wedge. Seth himself designed the copper snowflake inlay placed in this guitar's ebony fretboard.

00-DB Jeff Tweedy

Designed in collaboration with Grammy Award winning Wilco front man, Jeff Tweedy. The 00-DB Jeff Tweedy is Martin's first Custom Artist model that is FSC® Certified, an important distinction for both Tweedy and Martin.

MARQUIS COLLECTION

000-28K Authentic 1921

Based upon a pristine 1921 000-28K from the Martin Museum collection, this slotted head 12-fret is a completely faithful recreation of the original, featuring flamed Hawaiian koa top, back and sides, hide glue construction and a hand shaped neck without a truss rod.

D-45S Authentic 1936

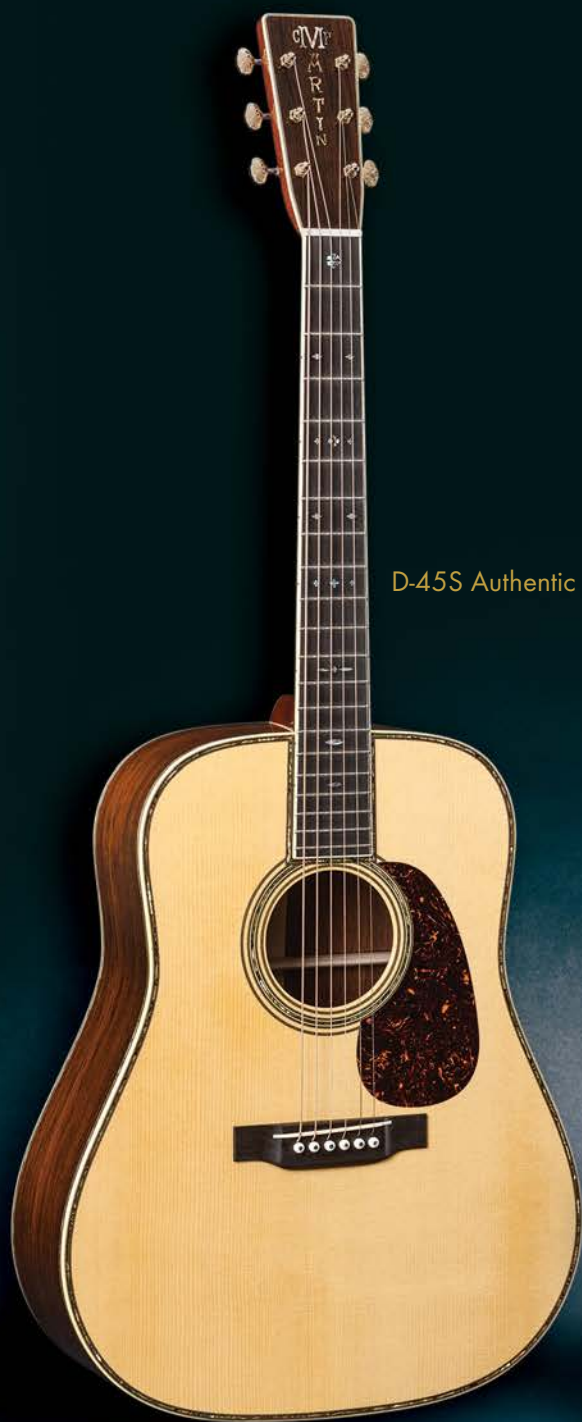

Constructed the old way - with hide glue throughout. The D-45S Authentic 1936 is based on a large body D-45 located in our museum, and features Brazilian rosewood back and sides, an Adirondack spruce top with Vintage Tone System (VTS)*, period-correct "45" Authentic style appointments, and includes gold tuners with hand-engraved butterbean knobs.

D-28 Authentic 1941

Based on a 1941 D-28 in our museum, this guitar features hide glue throughout, Madagascar rosewood back and sides, an Adirondack spruce top with Vintage Tone System (VTS)* and authentic 1941 D-28 appointments, right down to the neck barrel, heel, diamond, head taper, and slots.

000-28K Authentic 1921

* The new Martin Vintage Tone System (VTS) uses a unique recipe that is based on the historic torrefaction system. The VTS system acts much like a time machine in which Martin can target certain time periods and age the top/braces to that era. This focused method allows Martin's craftsmen and women to recreate not only the pleasing visual aesthetics of a vintage guitar, but also reproduce the special tones previously reserved for vintage instruments. Learn more about Martin's Vintage Tone System (VTS) at www.martinguitar.com/VTS.

RETRO SERIES

D-45E Retro

The flagship of the Retro Series, this is the most ornate instrument we offer in that series, featuring a Sitka spruce top, East Indian rosewood back and sides, Fishman F1 Aura+ electronics, hand inlaid pearl and premium tonewoods.

D-18E Retro

Features a sleek, modern High Performance Neck for enhanced playability. The D-18E Retro adds a Sitka spruce top to the genuine mahogany back and sides and Fishman F1 Aura+ electronics. Perfect for the intermediate and advanced player.

HD-28E Retro

A modern re-creation of the classic herringbone Dreadnought, featuring a Sitka spruce top, East Indian rosewood back and sides and Fishman F1 Aura+ electronics. This guitar carries a distinct prestige that can only come from the Retro Series collection.

STANDARD SERIES

Rich in its visual beauty as well as its warm and powerful tone, Martin's D-35 Dreadnought first appeared in 1965 with its distinctive three-piece back, featuring matching outside "wings" and a contrasting center wedge. This significant departure in back design allowed for a more efficient yield of Brazilian rosewood that was becoming scarcer and more costly at that time. With additional black and white inlay lines and a bound fingerboard, the D-35 provided a nice complement and slight appointment upgrade to Martin's flagship D-28. Prized for its uniquely deep and powerful bass response, the D-35 has proven ideal for vocal accompaniment. To celebrate this milestone in Martin Guitar history, we will be releasing a series of D-35 Limited Edition models with commemorative 50th Anniversary interior labels and 50th Anniversary booklets included with every stock model D-35 initiated during 2015. The D-35 is also available in Sunburst and Ambertone.

STANDARD SERIES

OM-28

The OM-28 features a polished gloss East Indian rosewood body, edged with ivoroid binding. The neck is a modified low oval profile with Performing Artist taper and a width of 1-3/4" at the nut and 2-3/16" string spacing for easy playability. Nickel open-gear tuners with butterbean knobs are found with a rosewood headplate.

D-18

The D-18 Dreadnought features a sleek, modern High Performance Neck for enhanced playability. The D-18 adds a Sitka spruce top to the genuine mahogany back and sides. Perfect for the intermediate and advanced player. Also available in Auditorium, Sunburst and Ambertone models (not shown).

D12-28

Featuring a Sitka spruce top and East Indian rosewood back and sides, this guitar is a classic Martin Dreadnought in a 12-string.

SPECIAL EDITIONS

GPC Aura GT

The GPC Aura GT comes equipped with Fishman F1 Aura Plus electronics and consists of an East Indian rosewood body with a satin finish and a polished gloss Sitka spruce top featuring a two ring pearl rosette. Added features include a certified African blackwood bridge and fingerboard, with hexagon pearl inlays. The skeleton button tuners add a jewel like appearance. Also available in Dreadnought model (not shown).

CEO-7

Reminiscent of models from the "Golden Era", the CEO-7 features a sunburst finish, golden age tuners and authentic headplate lettering. This new 14-fret short scale 00 "sloped shoulder" model features a solid Adirondack spruce top with genuine mahogany back and sides for complex tonality.

000C Nylon

The 000C Nylon Cutaway features a wide neck, slotted headstock and classical style bridge. Solid sapele with a gloss top, this model is stage-ready with onboard Fishman F1 Analog electronics.

UKULELES

5K Uke

5K Uke

A soprano-sized model, the 5K Uke is the top of the line in ukuleles. It is crafted with solid highly-flamed Hawaiian koa top, back and sides finished in a polished gloss, and trimmed with abalone pearl appointments.

S1 Uke

The S1 Uke is a soprano-sized model with top, back and sides crafted of genuine mahogany, joined with a dovetail genuine mahogany neck. Produces a sweet, warm and beautiful sound.

OXK Uke

The OXK Uke was the first ukulele model offered as part of Martin's popular X-Series. This instrument's soprano-size top, back and sides are constructed from Hawaiian koa-pattern high pressure laminate (HPL).

3 Cherry Uke

The 3 Cherry Uke is constructed of an FSC® Certified cherry top, back, sides and neck. This certification ensures that the wood used to make the guitar is harvested responsibly with very little effect on the environment.
